169	First Resources	First Resources	In November 2023, Gecko Project published an article "Chasing Shadows" that reported indications of a link between First Resources (FR) and several companies namely Ciliandry Anky Abadi (CAA), FAP Agri (FAPA), and New Borneo Agri/Sulaidy group. Among the companies mentioned, only FR was in the GAR supply chain when the report was published,	The Gecko Project https://thegeckoproject.org/articles/chasing-shadows/	04/11/2023	Deeper Investigation	https://www.goldenagri.com.sg/sustainability/responsible-sourcing/grievance-list-and-reports/
170	First resources	First Resources	Cargill was contacted by The Gecko Project regarding their latest findings on First Resources' connection to three palm-oil companies: FAP Agri, Ciliandra Anky Abadi (CAA) and Sulaidy Group. This is the third time such allegations have been made regarding First Resources, since initial allegations were raised in 2018 and 2021	Grievance Source: The Gecko Project (2023), Greenpeace (2018, 2021)	24/11/2023	Deeper Investigation	https://www.cargill.com/sustainability/palm-oil/managing-grievances

171	Posco International	Bio Inti Agrindo	PT Bio Inti Agrindo (Posco International group) has been deemed non-compliant and suspended by NDPE buyers due to various deforestation allegation reports. In Q1-2023, PT BIA entered GAR supply chain via a mechanism called the 'Minimum requirements for supply chain re-entry after suspension due to NDP non-compliance.' This 'Reentry Protocol' was developed by a Stakeholder Working Group which included Mighty Earth and a number of HCSA members and implemented from 2019. The re-entry protocol requirements include a group-wide land clearing/development moratorium, halting all planting activities on non-compliant development areas, adopting and publishing commitment to NDPE at the group level, submitting concession maps for the purpose of monitoring, publishing a declaration of total area of land cleared ("Non-Compliant Development Area") following GAR's cut-off date of 31 December 2015, and commitment to implementing a recovery plan to compensate for the non-compliant development. 172	Runding Putra Persada	Runding Putra Persada	On Sep 19th 2022, RAN published a report titled "Carbon Bomb Scandals: Big Brands Driving Climate Disaster for Palm Oil". According to the report, a new investigation exposes consumer goods companies still buying illegal palm oil from protected wildlife reserve in Sumatra's Leuser Ecosystem (Rawa Singkil Wildlife Reserve). Among the allegations, the report shows a receipt of FFB's that came from Mr Mahmudin's allegedly illegal plantation inside the Rawa Singkil Wildlife Reserve and were delivered to PT Runding Putra Persada's mill (a supplier to GAR) via a palm oil broker called CV Buana Indah. 173	Duta Marga	Samudera Sawit Nabati	RAN reported that SSN was identified as a mill that was being supplied with palm oil from the same collection point located in the village called Le Meudama (referring to the Pak Mahmudin case related to a farm inside the Rawa Singkil Wildlife Reserve). The report showed an FFB purchase receipt that was collected at the Le Meudama collection point which shows palm oil from the collection point (referring to the Pak Mahmudin case) was delivered to the PT. SSN mill by a broker named CV Mas.
