

OXIPURITY® 7000 U C

Our range of polysorbates is designed to help your formulation, offering benefits and various functionalities

Promotes **stability** for oil-in-water emulsions and **increases skin penetration of APIs** in topical solutions

Helps **improve API solubility**, a key factor in successfully delivering the active as intended in the formulation

Why use OXIPURITY® 7000?

During the production process of pharmaceutical formulations, it is necessary to **use stable excipients** with different functionalities.

Polysorbates are **non-ionic, amphiphilic surfactants** derived from various fatty acids and sorbitol that can be used in this perspective.

They are **versatile** and can be used in a variety of ways, including oral administration systems, liquid solutions and topical applications, as well as optimizing the solubilization of APIs with low water solubility, being used in self-emulsifying delivery systems (SEDDS), providing stability for oil-in-water emulsions, promoting better penetration of APIs into the skin in topical solutions and being used in processes such as wet granulation.

Why use to ensure the optimum performance of your formulations, we offer our range of Polysorbates, **OXIPURITY® 7000 U C**, which includes:

- Polysorbate 20 (OXIPURITY® 7020 U C)
- Polysorbate 60 (OXIPURITY® 7060 U C)
- Polysorbate 80 (OXIPURITY® 7080 U C)

These products **meet the requirements of the US Pharmacopoeia (USP)** and are manufactured in accordance with **Anvisa's Good Manufacturing Practice standards (RDC 34/15)**, guaranteeing compliance with strict quality standards.

ABOUT INDOVINYA

We are **Indovinya**, the specialty chemicals division of **Indorama Ventures**, a global company that provides solutions for the long-term success of our customers.

As **solution providers**, we operate in segments such as Nutrition & Health, Industrial Applications, Crop Solutions, Energy & Resources, Home and Personal Care, and Coatings, among other industrial applications. Our presence is felt daily in the lives of millions of people around the world.

Our portfolio

Excipients

- **OXIPURITY® 4000**: Polyethylene glycols
 - LA: Liquid PEGs with low aldehyde content
 - P: PEG solids powder version
- **OXIPURITY® 7000 U C**: Polysorbates
- **EMCAplus® U**: Mineral oils
- **OXIPURITY® 1100 U**: Propylene Glycol
- **OXIPURITY® 1000 U GC**: Glycerin

Synthesis Intermediates

- **OXIPURITY® 3002**: Methyl Ethyl Ketone
- **OXIPURITY® 3004**: Sec-butyl alcohol
- **OXIPURITY® 3270**: Isoamyl alcohol

Certifications and licenses

Our pharmaceutical portfolio for excipients is based on products supported by multi-compendial testing in order to **ensure compliance** with international monograph standards and Good Manufacturing Practices (GMP) for pharmaceutical needs.

Technical expertise

Our experts offer **extensive knowledge about excipients and their functionalities** in different dosage forms, helping our clients in the formulation development process.
