

About Indovinya

We are Indovinya, a global business division of Indorama Ventures, an innovative chemical company, providing high-value-added and sustainable solutions for the long-term success of our customers.

As producers of solutions used in **Crop Solutions**, **Energy Resources**, **Home Personal Care**, **Coatings, Performance Products**, and other applications, we are present in the daily lives of millions of people around the world.

Through our increasingly sustainable chemistry, designed to carefully meet the needs of each of our customers, we aim to transform our operations and products into something increasingly relevant for the planet.

We strive to **create value for shareholders**, **employees**, **and communities** while meeting our sustainability goals.

1 in every 5PET bottles are made from IVL resins

1 in every 4 airbag made f IVL yarn

1 in every 2 premium baby diapers made from LVI fibers

About Indorama Ventures

Indorama Ventures is a world-class sustainable chemical company, with global integrated leadership in PET and fibers, serving key customers across various end-use markets.

As one of the world's leading petrochemical producers, it operates in **35 countries, employing approximately 26,000 employees and boasting 148 industrial facilities** across Europe, Africa, the Americas, and the Asia-Pacific region.

The company operates in three business segments: **Combined PET, Fibers, and Indovinya**, which was recently renamed from the Integrated Oxides and Derivatives business.
